## Motor Vehicle Accidents Continue To Mar Safety Council Traffic Estimate

**Steadily Death Rise Exceeds 330 Figure of Safety Council**

Two house fires and a traffic accident caused 12 of the 19 accidental deaths reported in Alabama during the long New Year's weekend. Five children died in a fire at Childersburg, three others perished in a fire near Boligee in West Alabama, and four youths died in a traffic accident near Selma. A total of 78 fatalities took place Sunday.

Over the nation a steadily rising traffic toll Monday ended earlier hopes for a new low in New Year's weekend accident fatalities. Five deaths set a record for a New Year holiday. There were 78 fatalities from fires and 297 from traffic accidents during the three-day celebration, a total of 424.

The National Safety Council had figured in advance that 330 Americans might die in motor vehicle accidents in the holiday period. Fire deaths threatened to surpass any toll for a New Year period since World War II. The largest number of such fatalities on record is 74, which was set during the 1955-56 New Year, also a three-day celebration. But as usual, the motor vehicle was the No. 1 killer. Most of the deaths occurred single, but eight persons lost their lives in a two-car smashup in Oklahoma and four persons were injured fatally in a car-truck crash near Chambers, Ariz.

Cold, ice-preserving weather in most of the North and snow or a blend of snow and rain added to the periods of driving in much of the eastern half of the nation.

During the recent three-day observance of Christmas, deaths in traffic numbered 524, in fires 83, and in the miscellaneous bracket 86 for a total of 693.

During the three-day 1959-60 New Year celebration deaths in traffic numbered 338, in fires 66 and in the miscellaneous class 57, an over-all figure of 462. The record traffic toll for a three-day observance of New Year's is 574, established 1959-60.

On Sunday, December 31, the Westside Baptist Church observed its "Victory Sunday" by going over the goal for the fourteenth time. The total offering was \$1,462.80. This special offering goes on the church debt. In the worship service on Sunday the labor contract was burned, symbolizing the completion of the new educational building. The labor contract was held by Mr. Robert King, the contractor. The labor contract was struck the match to the contract. Following lunch in the new social hall, the church held an Open House from 2:30 to 4:30. At this time many friends and members of the church were

shown the new building. Among those attending were friends from Enterprise, Andalusia, Dozier, Victoria, and many from Elba.

## 400 To Be Drafted For January Call

Montgomery, Ala. — A total of 400 Alabama registrants will be summoned to the induction station here during January to fill Alabama's Selective Service quota according to State Director Walter M. Thompson, Jr.

Thompson said that Alabama's call will include only volunteers, delinquents and registrants with out children in Class I-A, I-A-O, of 22 years or older. Alabama's quota of 400 will serve toward filling a national call of 15,000 men for January. All will be inducted into the Army.

The State Director again pointed out that individual county calls are based on those available registrants already examined and acceptable.

Coffee county's call includes only one.

## Army Infantry Air-Lift To Germany Slated Sometime This Month

**Battle Group Stay Overseas Estimated At "Several Months"**

The United States will fly two more infantry battle groups to Germany in mid-January, informed sources said Monday. It will be the first overseas air-lift by the strike command, a new unified Army-Air Force fire brigade organization designed to speed forces to any troubled spot in the world.

The move will involve perhaps 400 Army troops, plus a large number of Air Force transport and other planes and their crews, the sources said. The two

battle groups, it was understood, will be drawn from the 4th Infantry Division, a regular Army outfit based at Ft. Lewis, Wash. Army National Guard or Reserve elements now on active duty are not expected to take part.

The Air Force planes will come from a number of bases around the nation.

Since the Berlin crisis began last summer, this country has shipped about 45,000 reinforcements to its forces manning the cold war front in Europe. U. S. military manpower in Europe now totals close to 300,000 men, chiefly Army troops and Air Force units.

Last spring, the United States planned an overseas troop movement exercise like the one now in the offering, but it was canceled abruptly on April 29, apparently because the Kennedy administration wanted to keep the troops in position for possible use in Laos, which then was in crisis.

Although the exercise may be described as a training drill, Pentagon sources indicated the Army men probably will remain in Europe for several months.

## Flowers To Qualify As Candidate

Richmond Flowers, former state senator from Houston and Henry County, and a Dothan attorney, will qualify for Attorney General of Alabama, the state's number one law enforcement office, he has announced.

Flowers was a runner-up for attorney general in 1958. He is known as one of the state's most colorful and colorful a campaigners.

A member of the 1955 and 1957 legislative sessions, Flowers was an aggressive sponsor of legislation and worked for bills involving aid to agriculture, education, industry, roads, old age benefits, labor, reappointment, public health and others.

Flowers was selected by the Capitol Press Corps as the Senate's best orator in the 1955 legislative session and outstanding freshman senator in the 1957 session. He was given a citation in 1956 by U. S. Senator Lister Hill for his efforts in establishing the \$15 million Southeast Alabama Hospital at Dothan.

He took his pre-work at Auburn University and received a degree in law from the University of Alabama in 1948, after his return from military service in World War II. He entered the U. S. Army as a private, attained the rank of captain, serving with the Medical Department in the Pacific Theater as a member of Gen. Douglas MacArthur's special staff.

Flowers has practiced law in Dothan since receiving his law degree and is presently president-elect of the Houston County Bar Association. He is a Mason and a member of the VFW, and Dothan American Legion Post where he served as Commander. He is a member of the Methodist Church, where he teaches a Bible Class and is a Methodist lay speaker.

## Two Auto Accidents Reported In Elba

Two different accidents between automobiles and trucks took place on the streets of Elba Tuesday morning, reported to be the first time such has happened here.

A collision happened about 9 o'clock Tuesday morning when a GMC 3-ton truck, owned by M&M Concrete Building Products of Montgomery, and a 1957 passenger sedan, owned and driven by Mrs. Gerald Boswell of Elba, collided at the intersection of Collier and Claxton Streets here in Elba.

The approximate estimated damage to the automobile was \$150.00 and about \$200.00 to the truck. The truck was driven by Harry Arthur Davis, 1320 Heron St., Montgomery.

A second accident occurred about 11:30 Tuesday morning on Davis Street, at the alley near Padgett's Restaurant. A 1959 Ford delivery truck, owned by City Fish Market of Dothan and driven by Carl B. Cosby, of 1328 S. St. Andrews, Dothan, and a Buick sedan, driven by Mr. Sammie Chappel, collided. The automobile was backing from the curb and the truck came out of the alley-way. ## Industrial Investment' In Alabama Counties Increase In Year 1961

**Kinston Industry New Concern In Coffee Co., South Alabama**

For the third consecutive year new capital investment in Alabama manufacturing plants has shown an increase, Leland Jones, director of the State Planning and Industrial Development Board, announced in this newspaper earlier this week.

The Board released a listing of new plants and expansions in the State, showing 246 new or expanded installations with a total new investment of \$218,667, 600,89 new factories were announced, with investment of

\$27,000,000. Expansions numbered 137, with added investment of \$191,607,500.

The new industrial plants will employ 4,111 persons. Additional employment in the expanded plants will total 4,887.

In releasing the summary, Jones stated that the Development Board was particularly gratified at the number of plants which announced expansions during the year. He called these expansions "proof that Alabama manufacturing operations are successful."

He noted that the total investment in new and expanded plants for the year 1958 was \$49 million. The figures rose to \$101 million in 1959, and jumped to \$212 million in 1960. The 1961 total shows an increase of more than \$6 million over 1960.

The new plants and expansions were widely distributed throughout the state. Jones noted, with expansions or new plants reported from 60 counties during 1961. He added that 65 counties had reported new factories or expansions during the 1959-1961 period.

Covington County reported two new industries. Opp Concrete Company and Alabama Casket Company, Inc., of Red Level. Opp had expansions of three plants during the year. They include Doctor Pepper Bottling Company, Opp Peanut Company and Opp & McNeal Mills.

Only one new industry was reported in Coffee County. A state year, Modern Electric of Kinston. Expanded industries included Bama Mills of Enterprise and Enterprise Manufacturing Company. The Kinston concern restores TV picture tubes.

### Invitation To Stop With Us . . .

By Mrs. Lucile Woodham McGrae

We have purchased The Elba Clipper and look forward to working with you good people of Elba. The Clipper can be only as good as the newspaper as the town will support. In other words a newspaper represents the town and its community mirroring its activities and the city is judged partly by its newspaper. Realizing this fact we promise as good a newspaper as you, the people of Elba, want us to print.

It has always been our policy to print all the good news and as much of the bad as we're forced to put in the paper. We don't like bad news any better than the rest of you but there are times when it is a duty we must perform or else not be considered a news media.

It is our desire to print club news, as much school news as space will permit and not omit other important news items, school church announcements, social news, general news, personal items, as well as some state and national news.

We solicit everyone to send or telephone us as though we would rather that you come in to see us and at the same time tell us about your visitors or where you have been. We plan to use some pictures but they will be limited because of the high cost of enlarging, and because of such, we're forced to require some compensation for social pictures.

We're not now in the operations of a weekly newspaper. The publisher has been contacted with The Florida News, and continues to own and publish it, after more than thirty-three years. The managing editor grew up in a newspaper shop and after a four year period in service during the Korean War and his years in college, he has been closely connected with newspaper activities. Though the business manager has only been in close observation of newspaper work during the past two years he is very familiar with the successful operation of a business and will always be ready to work with anyone interested in advertisements, printing matter and office supplies. He will spend a lot of time visiting with you good people in Elba.

Besides the publishing of The Elba Clipper, an increase is planned in the printing department and the office supply department.

But first, we're publishing a newspaper and it is our aim to give the people of Elba a newspaper, they will be proud to have in their home. We do ask for your help in making The Clipper the best weekly newspaper in North Alabama. We want you to realize that The Clipper is your newspaper. Every subscriber owns a part of The Elba Clipper and together we should put into the mails a good newspaper. And again we invite you to visit us at The Clipper office. We're anxious to know all of you and hope that you will stop in to see us.

We're very glad to announce that Jack Kemp will remain with us as general manager of the printing department and will continue to be assisted by Lamar Brooks, assistant manager. Kemp has been with The Clipper nearly five years and we have found he is one of the most efficient all-around printers we have had the privilege of working with. Kemp and Brooks work extremely well together and both are very much concerned that The Clipper customers be served satisfactorily.

Again let us stress that we pledge our full strength for the interest of The City of Elba and this area.

## VIEWS... OF THE... NEWS

BY J. L. KIMBRO

WHAT CAUSES CRIME WAVE IN NOW-ADAYE LIVING

Every few days J. Edgar Hoover, as well as many others who use themselves in big breeches come out with highfalutin answers to what is the cause and who is responsible for the fast increasing crime wave. And many of the things they say are true. But they never seem really to get to the first cause, or to the second either. The real underlying cause is the scoldy-roddies and from there on. Many years ago the goody-goody-deeds decided they knew more than the Lord ever had known and that parents, teachers and others must-n't use the rod of correction but just talk to the tough-n-reddies and be sure and sprinkle air-words of that sum is interest. The most war on their tongues before doing that. On thorough school, too, see that it children don't have to work. Get the government in on this part of it. Instead of teaching children to work, teach them to play in all for they go to the polls and vote of the child's formative years, for just about everything that is certain he is not allowed to say tax or says bonds. They work even if he wants to. It is dangerous and a child might get hurt if he is allowed to work! situational amendments that ei-

ther said "more tax" or "more debt". Rejected only one which said "more debt". They probably would have approved it, too. If The Montgomery Advertiser had not thrown it into the gutter of politics. We are paying our several million dollars a year for interest alone. In all some 20 million dollars a year must go on debt.

### "LITTLE BOBBY" REPORTS YEAR-END PROGRESS TO JFK

"Little Bobby" last week made his year-end report to Big Bud John F. on the wonderful (?) strides he has made for Civil Rights. Of course, Little Bobby meant his strides were for colored people. While people don't have civil rights any more, Little Bobby boasted of how he has made strides in the field so dear to his heart. According to AP accounts of his year-end report, Little Bobby has a basic policy of seeking effective guarantees and action from local officials and civic leaders voluntarily and without court action. All of it without publicity. Little Bobby said that "these matters should be resolved as the local level and the federal government should intervene only if all other efforts have failed". And Little Bobby added that "on numerous occasions, I am happy to report voluntary action has been taken voluntarily. It has been only when local officials have not taken effective steps to correct a situation or where there has been an attempt to evade court orders that the department has taken formal legal action." Bullied down to the facts it is like this: The NAACP tells Little Bobby what and where. Little Bobby tells his heels. He sends one or more of his Jr. Bobbies to "investigate". The local officials are called in. They are told what to do. If they cooperate voluntarily, all is well. No publicity. No lawsuit in federal court. But if the local officials don't click he takes formal legal action. This means an order forthwith from a federal court commanding the local officials to cooperate. Yet Little Bobby eats it "voluntarily" if the locals dance. If they do not, he gets it by force. I am wondering as Little Bobby didn't say whether he has blanks already signed by the courts and all he has to do is fill in over the court signatures.

### PRES. KENNEDY ASKS FOR \$100 MILLION FOR CONGO

President Kennedy is expected to ask Congress to appropriate a hundred million dollars extra to buy United Nations bonds to bail that "Babel of Tongues" out of the red because of its Congo operations where a war is being conducted to force Katanga independence to dance to the tune of the central Congo so-called government.

Katanga is the only part of the Congo that is worth an ox's head, the only part that is so much as half-way dependable, and so far gives any assurance that it would not turn communist overnight. Here in Katanga, the U. N. is actually wading war in destroy the very thing its founders intended it to promote and protect. Will our Congress back up such a move with more of the American taxpayers' money, as per Kennedy's expected request? Probably so. But it will be a dirty shame. If Congress does it. Goodness knows I haven't forgotten how former President Herbert Hoover sat in his easy chair and twiddled his thumbs while little children starved, but he said something a few days ago that I especially liked. He said, "It is a sad day for the American people when American resources are being applied to the killing of people who are seeking for independence and self-government, free from Communist domination."

I liked what Mr. Hoover said so well that it minimizes the horror of his administration in my memory and I can almost wish for an opportunity to swap out the government we have had in Washington the last ten years or more for another Hoover day, to be accepted Hoover carts-n-all. Whatever Hoover's shortcomings were as president of the United States, he upheld our true American liberties as he swore in his oath of office he would do. In Hoover's day the tent A-mendment to the Constitution was respected as much as any other part of that fundamental document, and there really was a "free west."

### STEVENSSON WARNS U. S. OF ACT OF SELF DESTRUCTION

Adlai Stevenson, U. S. envoy to

the United Nations, warned recently that the U. N. is in the act of self-destruction. And Lord Home, Foreign Minister of Great Britain, said in the House of Lords on Dec. 18: "I have persistently warned the country and the U. N. of the dangers which would result in the U. N. because the balance of responsibility as it has been laid down in the Charter has been upset. If the emphasis is taken off the first duty of the U. N., which is peace-making and security, and laid on the subsidiary issue, then the U. N. places itself in danger of becoming political and partisan and adopting double standards. And Lord Home added, "If it were to do that, then it would sow the seeds of its own destruction."

### HOURLY PAY RATE IN U. S. HIGHER THAN IN SWEDEN

According to a chart appearing in a recent issue of U. S. News and World Report, hourly pay for labor in the U. S. is higher than in Sweden. In Sweden it is \$1.23 West Germany with an average of 38 cents an hour is the next highest.

From that, labor in the European nations ranges down to as low as 65 cents an hour in Italy. There are tax savings too, for

the American industrialist who moves to Europe. Stockholders get bigger credits for the taxes already paid by the corporation, and the corporation itself gets a faster tax write-off. The result is bigger profits in Europe than at home and many are moving to Europe or building plants there. Others are moving to Japan where net profits after taxes are even bigger. And since goods can be manufactured for much less cost and shipped back to the United States at a price lower than it can be made here, some of that is being done in the future. Eventually, unless there is a change that will give the American producer a chance to do the manufactured goods used in America will be produced as high as it is in the next highest.

### Soldier of Elba Finishes Training

themselves out of a job. Labor does not stop to think which is better, \$2.99 an hour labor price tag but no job available, or \$1.25 an hour and a chance to pick his job.

These are the products of man's labor—and God's. From the moment the seedlings were placed in the warm earth, they have been under constant care.

First came the rain and the sun—and then the ceaseless work of fertilizing, cultivating, and spraying. Last, came harvest time, when the proud growers gathered the rewards of their labor.

Only by such diligence can we hope for a truly bountiful crop. God has given the refreshing rain and warm sunshine, but He expects us to do our part.

And so it is with the care and cultivation of our spiritual lives. Man is endowed with many talents and abilities, but unless he tends and nurtures these gifts, they will not increase and grow.

Harvest time in the life of every person is at maturity, when men are at the peak of their usefulness and wisdom. By attending the services of the Church and by studying the Scriptures, we will realize greater happiness and contentment here on earth—and will be preparing ourselves for the RICH HARVEST of a life hereafter.

THE CHURCH FOR ALL...  
ALL FOR THE CHURCH

The Church is the greatest factor in each for the building of character and good citizenship. It is a schoolhouse of spiritual values. Without a strong Church, neither does man nor civilization can survive. There are four main reasons why every person should attend services regularly and support the Church: (1) For his own welfare; (2) For his children's sake; (3) For the sake of his community and nation; (4) For the sake of the Church itself, which needs his moral and material support. This requires church regularity and tithing your Bible daily.

# Senator Sparkman Wins Top 4-H Alumni Honor

Senator John J. Sparkman (Dem-Ala.) received the alumni recognition award, the nation's highest 4-H honor for former members, at the 40th National 4-H Club Congress in Chicago this week.

Presenting the gold alumni key to the Senator was S. L. Nevins, Vice President, Olin Matheson Chemical Corp.

"I still remember judging day at the County Fair. I didn't win first prize but I learned two things that every farmer should know: 'One was that better crops can be produced if they are properly handled; the other was that there is great joy in competition.'"

Senator Sparkman, who was the 1952 Democratic Vice Presidential candidate, was educated in public schools in Morgan County. He received his LL.B. degree from the University of Alabama.

In November 1946, he was elected to the U.S. Senate and throughout his career has maintained a high level of interest in farm legislation.

The educational value of the 4-H farm youth movement is secondary only to our public school system," Senator Sparkman said. "The continued guidance of the interest and talents of farm boys and girls is necessary to maintain the place of the farm family in the American economy."

The alumni program is sponsored by Olin and is conducted nationally by the cooperative extension service of the local 4-H Club. His first project, a one acre corn
